EDUCATION

BITS Pilani, Goa Campus

MSc. Physics & B.E. Electronics and Instrumentation

Aug. 2024 – May 2029

Sancoale, Goa

RELEVANT COURSEWORK

- C Programming
- Computational Physics
- Image Processing
- Technical Report Writing
- Digital Design

EXPERIENCE

Bhaskaracharya National Institute for Space Applications and Geo-informatics May 2026 - July 2026

Summer Intern

Gandhinagar, Gujarat

- Trained a YOLOv11 model on a multi-source PCB dataset to detect 9 electronic component classes with top level accuracy.
- Built NeuralBoard — a full-stack web application integrating real-time AI inference with BOM generation, scan history, and multi-format export.
- Developed an image enhancement pipeline (LANCZOS4 + CLAHE + sharpening) that improved component detection count by over 200% on real PCB images.

LEADERSHIP/EXTRACURRICULAR

Abhivyahti — Core Member

Coordinated and managed performances during college fests as well as internal competitions

Competed at BITS Hyderabad as a member of a 5-person team in an inter-campus competition

COURSES AND CERTIFICATIONS

- Completed a C Programming course on Coursera by Prof. Ira Pohl from University of California, Santa Cruz.

TECHNICAL SKILLS

Languages: Python, C, MySQL, HTML

Developer Tools: Google Cloud Platform, VS Code, Visual Studio, PyCharm

Libraries: pandas, NumPy, Matplotlib

OTHER INFORMATION

- **Strengths:** Eager to learn and work in new domains
- **Sports:** Tennis, Table Tennis
